FRONTEND PROJECTS

Xpert Assistant

<https://xpert-assisstant.vercel.app/admin>

- Built **frontend** for Xpert Assistant with smooth UI animations for an engaging user experience.
- **Integrated APIs** to fetch, process, and display insights, ensuring seamless data flow.
- Utilized **Redux for state management**, ensuring efficient data handling.and a scalable architecture.

Halal DevCo.

<https://halal-devco-sigma.vercel.app/en>

- Built a responsive, scalable website using **Next.js**, **Tailwind CSS**, **Framer Motion**, and **GSAP**.
- Optimized data fetching with **TanStack React Query** and **Axios**.
- Implemented **internationalization** with **Next-Intl**.
- Managed content dynamically using **Strapi's headless CMS**, streamlining API delivery and backend operations.
